| Kursbeschreibung: The course, offered in English, seeks to introduce students to the basic theoretical concepts and practical aspects of international conflict resolution. The course addresses both the issues and sources of conflict and discusses the principal methods of conflict management. The current features and dilemmas in the study of conflict resolution will be also dealt with in some detail. | | |
| Ziele: The main goal of the course is to familiarize participants with the key issues of conflict resolution in the international and domestic context. The objective is to stimulate an active response from the student body by resorting to group simulations of conflict situations. Cases of international conflicts will be studied with a view to exploring the best avenues for their peaceful resolution. | | |
